

Bellow

Bellow for QME Linear Unit.

Note that "stroke" for a L+R unit refers to the stroke of each individual slider.

Bellows are recommended for all applications where the unit isn't protected against dust and dirt. The bellow may also work as a squeeze protection.

Dimensions in mm.

General Data

| Designation | Bellow Ltot | Bellow R+L Ltot |
|-------------|----------------------|----------------------|
| QME12-B | stroke * 1.286 + 110 | stroke * 2.572 + 195 |
| QME20-B | stroke * 1.200 + 162 | stroke * 2.4 + 292 |
| QME30-B | stroke * 1.146 + 234 | stroke * 2.292 + 434 |
