PLANETARY GEARBOXES

PLANETARY GEARBOXES

Maximum precision and dynamics, combined with exceptional torque density, are the key requirements specified for reliable planetary gearboxes in practice. We offer planetary gearboxes for a big variety of applications and a wide performance range. Our low-backlash planetary and right-angle gearboxes are excellent to combine with our Linear units RHL.

LINEAR UNIT RHL + PLANETARY GEARBOXES

Complete your linear unit RHL with a low-backlash planetary or right-angle gearbox. By using our adapter-kit CPS, you can easily connect your linear unit with a planetary gearbox. The adapter-kit is available for Linear units RHL80 and RHL 110.

With our CAD-configurator you are able to configure a complete solution of linear unit, adapter-kit and planetary gearbox, of your choice.

ALPHA BASIC LINE

The CP and CPS planetary gearboxes are tailored for applications in the mid-range and economy segment with low to medium requirements for positioning accuracy. The key benefits offered by the gearboxes are high flexibility combined with maximum efficiency.

KEY FEATURES

- High flexibility
- Maximum economy
- Variable application connection
- High power density

CP

- Ratio 3-100
- Max. torsional backlash ≤ 12 arcmin
- Max. torque 17-800 Nm
- Available with food-grade lubrication

CPS

- Ratio 3-100
- Max. torsional backlash ≤ 12 arcmin
- Max. torque 17-800 Nm
- Available with food-grade lubrication

CPK

- Ratio 3-100
- Max. torsional backlash ≤ 13 arcmin
- Max. torque 17-700 Nm
- Available with food-grade lubrication

CPSK

- Ratio 3-100
- Max. torsional backlash ≤ 13 arcmin
- Max. torque 17-700 Nm
- Available with food-grade lubrication

**ALWAYS THE RIGHT SOLUTION
AT THE RIGHT TIME.**

With a unique customer focus we make it easy to create, maintain and develop automation and linear movement.
